

OUR VALLEY, OUR HEALTH

An investment in
the health of our community
and the strength of
our local health system

GUNNISON VALLEY HEALTH
FOUNDATION

Our Valley, Our Health annual giving program is a cornerstone initiative of the Gunnison Valley Health Foundation created to inspire transformational giving that supports the well-being of our community - from cradle to grave.

Our Valley, Our Health is more than a donation – it is an investment in the long-term health and vitality of our valley.

Through your generosity, we will

Ensure access to care close to home, so patients and families can receive high quality health services without leaving the valley.

Recruit and retain top-tier healthcare professionals, ensuring the Gunnison Valley remains a destination for medical excellence.

Strengthen healthcare sustainability, equipping our system to meet current needs and future challenges.

Support comprehensive healthcare services across all stages of life, from pediatric to elder care, including preventive services and specialized treatment.

Across our country, rural healthcare systems are facing mounting challenges including workforce shortages, limited resources, and acute financial strain, while the demand for services continues to grow. In a rural area like the Gunnison Valley, geographic isolation can make access to care more difficult and expensive. Philanthropic support is no longer a luxury; it is essential. Private donations help bridge funding gaps, accelerate innovation, and ensure that rural communities like ours continue to have access to high-quality, local healthcare.

Our Valley, Our Health

Annual Giving Levels for a Commitment of Five Years

\$50,000

VISIONARY LEADER
