Gunnison Valley Health

Gunnison Valley Health does not author letters for emotional support animals (ESA). We are unable to evaluate the impact any animal has on our patient. We are also unable to recommend where to receive an ESA letter locally, as the determination is made at the discretion of each provider.

There are online companies that offer this service for a fee such as:

www.petable.com/state/esa-letter-colorado

www.esadoctors.com

www.americanservicepets.com

Gunnison Valley Health does not endorse any online provider. These links are provided for informational use only.

Sincerely,

Stephanie Porter, MD, Chief Medical Officer
